BOURNHEATH PARISH COUNCIL RISK MANAGEMENT POLICY

The Parish Council has in place a system to help it manage risk; the system is designed to be flexible to cater for future progress and any developments over time.

Bournheath Parish Council acknowledges that risk management is increasingly important and that parish councils are expected to be explicit in their approach to it. The failure to manage risks effectively can be expensive in financial terms and in terms of service delivery and in addition, the parish council's ability to achieve its objectives would be threatened causing the electorate to lose trust in the council.

Bournheath Parish Council will therefore ensure that it:

- Identifies key risks (as in the appendix to this policy);
- Evaluates the potential to the council of one of these risks taking place; and
- Agrees measures to avoid, reduce or control the risk or its consequence.

For example physical assets could be lost as a result of fire or flood, damage by vandals, theft or simply deterioration through lack of maintenance. All these risks can be minimised or transferred by various means, such as taking out insurance, securing alarms or by regular inspection and maintenance.

In addition to identifying risk it is a good idea to make a judgment about the likelihood of the risk occurring and its potential impact.

The Parish Council undertakes to manage risk by:

- Taking out appropriate insurance
- Working with another party to reduce the risk where relevant, and
- Managing the risk itself

Appendix 1 outlines the:

- ✓ Areas of risk to the Parish Council
- ✓ Type of risk that may occur
- ✓ Likelihood of the risk occurring, graded Low (1), Medium (2,3,4), High (5)
- ✓ Potential impact of the risk occurring
- ✓ Actions taken to reduce the risk occurring
- ✓ Evidence of actions taken to reduce risk
- ✓ Further actions for improvement

Appendix 2 is an excerpt from the current Asset Register
